Dr. **František** ŽernovickýDr. **Robert** Vlachovsky

Ladies and Getlemen, it is a great honour for me to invite you to the **1st multilevel venous workshop** in collaboration with legendary 36th Várady Workshop, which will be held in Bratislava (Presburg, Posony, Prešporok) the capital of Slovak Republic. We have the ambition to bring together beginners and advanced phlebologists in an open and free discussion. We want to offer the floor in particular practical everyday phlebosurgery and phlebology. We want to focus on the details that will improve our and your results. We want to bring lectures and interviews with the best about what, how, and why. We want to talk openly about complications and how to avoid them. We have prepared dissection workshops and ultrasonography workshops to make surgeries even more precise and safer.

We are looking forward to welcoming YOU to Bratislava – the beautiful city on the Danube, the coronation city of the Austro- Hungarian monarchy, 60 km from Vienna, less than 200 km from Budapest and 300 km from Prague. Unfortunately, Corona thwarted our plans. Still, we are not giving up, and we are waiting for the situation to develop. We have prepared a virtual studio with maximum protection, meeting the highest sanitary criteria. Here we would like to welcome at least vaccinated speakers. We will be connected to the rest of you virtually. We look forward to your participation.

Dr. Frank Zernovicky

invite **you**
