

2nd **Multilevel**

Venous

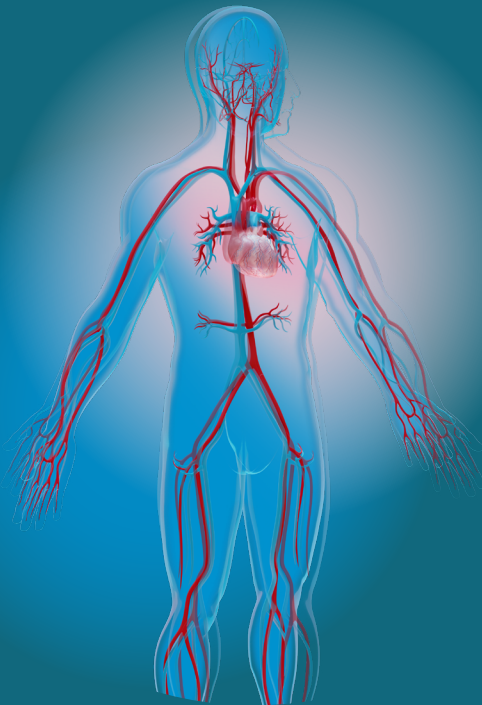

Workshop

October
14 – 15th 2022

bratislava

MUVEWO

Venue: Park Inn by Radisson Danube
Bratislava

www.muvewo.com

PRELIMINARY program

9:00 – 10:00

session 1
SCLEROTHERAPY

Sclerotherapy state of art

L. Hnatek, Czech Republik

Sclerotherapy contraindication international perspectives

T. Urbanek, Poland

Sclerotherapy of vulvar and scrotal varicose veins

A. Jaworucka-Kaczorowska, Poland

CLACS is it better than microsclerotherapy ?

P. Dragic, Serbia

Complications of micro-sclerotherapy how to avoid them ?

S. Munka, Slovakia

10:00 – 10:45

session 2
THINK DIFFERENT , CHANGING MINDSET

Water based protocol for compression treatment

S. Giancesini, Italy

Updates in non surgical veins therapy

J. Chris Ragg, Germany

10:45 – 11:00

C.O.F.F.E.E..B.R.E.A.K

11:00 – 12:50

session 3
NONTHERMAL NONTUMESCENT ABLATIONS

Clarivein - lesson learned after 9 years

T. Bures, Czech republik

Flebogrif - new data

T. Urbanek, Poland

Glue embolisation of the perforating veins reflux indications , technic and early results

L. Velicka, Lithuania

Glue embolisation of perforating veins single centre study

I. Bihari, Hungary

Experience with VariClose vein sealing system in Czech Republik

P. Balaz, Czech Republik

Experience with VariClose vein sealing system

J. Herman, Czech Republik

Comparison of thermal and non thermal ablations - scientific data , rumours and everyday experience

F. Zernovicky, Slovakia

13:00 – 14:00 L.U.N.C.H

14:00 – 14:20 **NEW GUIDELINES 2022 FOR CVI**

A. Jaworucka Kaczorowska, Poland

14:30 – 15:30 session 4
THERMAL TUMESCENT ABLATIONS CONTROVERSIAL TOPICS

Endovascular treatment of large diameter saphenous veins

- lesson learned after 20 years

U. Maurins, Latvia

Endovascular treatment of large diameter saphenous veins - hybrid approach

M. Slais, Czech Republik

Treatment of refluxing AASV - should we treat also GSV ?

J. Rits, Latvia

Treatment of tributaries delayed or simultaneously with thermal ablation ?

F. Zernovicky, Slovakia

Laser crossectomy - is it risky or is it safe, how do I look at it after 15,000 procedures ?

P. Dragic, Serbia

15:30 – 16:30

session 5

GET OUT MORE OF THE THERMAL TUMESCENT ABLATIONS

Treatment of perforating veins with RFA

G. Menyhei, Hungary

Total laser ablation

A. Kadiss, Latvia

Ultrasound guided laser ablation

P. Dragic, Serbia

SFALT (Sclero Foam Assisted Laser Treatment) - did it meet our expectations ?

S. Julinek, Czech Republik

Microwave ablation new perspective - Hungarian experience

I. Rozsos, Hungary

16:30 – 17:00

C.O.F.F.E.E..B.R.E.A.K

17:00 – 18:00

session 6

COMPLICATIONS OF OUR TREATMENTS

Complications after thermal ablations

N. Torma, Slovakia

Unpleasant complication during EVLA

A. Kadiss, Latvia

Complications during and after MOCA procedure

T. Bures, Czech Republik

Complications after glue

F. Zernovicky, Slovakia

Complication after traditional surgery

R. Vlachovsky, Czech Republik

18:00 – 19:00

session 7

CHALLENGING TOPICS IN PHLEBOLOGY

Malignant tumors invading VCI

Cs. Dzinich, Hungary

Leiomyosarcomas of the VCI

J. Janek, Slovakia

Central venous stenosis in endovascular era

M. Zilincan, Slovakia

Pelvic vein obstructions

R. Bazik, Slovakia

20:00 – 22:30

D.I.N.N.E.R

WORKSHOP WITH JEAN-FRANCOIS UHL

9:00 – 11:00 ANATOMY OF THE PERFORATOR VEINS

1. Definition - Landmarks
2. Terminology
3. Hemodynamical levels
4. Foot, leg, calf thigh PVs

Questions and answers

5. PVs companion arteries
6. Inter-perforator anastomosis
7. Bony PVs of the knee
8. 3D modeling of PVs

11:00 – 11:30 C.O.F.F.E.E..B.R.E.A.K

11:30 – 11:45 RULES OF VENOUS MAPPING

11:45 – 12:30 WORKSHOP OF VENOUS CARTOGRAPHY

(hands on session)

3 groups with 3 patients and 3 Color Duplex

12:30 – 13:30 L.U.N.C.H

13:30 – 15:30 HANDS ON WORKSHOPS

Sclerotherapy: What's the best concentration ? How to prepare effective foam? How to be safety in dangerous locations ? Tips and tricks for better duplex guided foam sclerotherapy (2 fantom leg for training)

L. Hnatek, Czech republik

Clarivein: What's the principe of the Clarivein ? How to use it safety and effectively ? What are the indication and contraindication ?

Tips and tricks for Clarivein.

T. Bures, Czech Republik

EVLA: what should you know about LEED, tumescens and correct pull back speed?

How to avoid neural injury ? Tips and tricks for more safety and more effective procedure

J. Rits, Latvia

Venaseal procedure: how is glue working ? Whats the adapted polymerisation ? Where to start the gluing ? Basic protocol for the Venaseal procedure and advanced protocol for the Venaseal. How to deal with redness after procedure ? How to recognise granulomatic reaction...?

F. Zernovicky, Slovakia
